

Marine Basic First Aid & CPR/AED Certification

Comprehensive two-day Marine Basic First Aid & CPR/AED course offers lifesaving first aid and cardiopulmonary resuscitation(CPR) skills and Automated External Defibrillator (AED) training using marine-based scenarios that meets the requirements of Transport Canada Publication (TP) 39008E. This course is designed for those in a commercial or recreational marine environment, for those needing to provide first aid on a vessel engaged in near-coastal voyages, as well as for those needing a rating certificate, endorsement, or a Master or Chief Mate limited certification. Course meets the mandatory minimum requirements before a person can be designated to take charge of medical care or provide first aid on board vessels. Hands-on training on Federal Marine regulations and first aid kit requirements. Course is equivalent to Standard First Aid for WSIB regulation considerations for workplaces in Ontario. Includes CPR/AED Level C.

Regulation Details Transport Canada's Training Standards for Marine First Aid and Marine Basic First Aid are found within Regulation TP13008E:

<https://www.tc.gc.ca/eng/marinesafety/tp-tp13008-menu-142.htm>

Certification - Successful participants receive a Canadian Red Cross Marine Basic First Aid & Level 'C' CPR/AED Certification (digitally after the course) as well as a Transport Document Number provided from Ministry of Transportation (mailed after the course).
